

Cybersecurity

The risks and rules criminals don't want you to know.

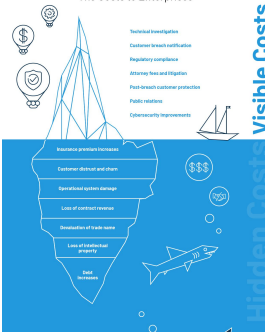

Cybercrime Statistics (2016-19)

Global Damage Predictions by Cybersecurity Ventures*

The Costs to Enterprises

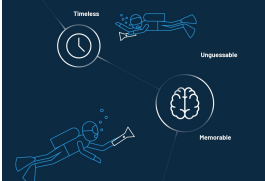

A Cybercriminal's ROI

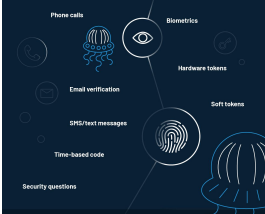

Don't become a statistic.

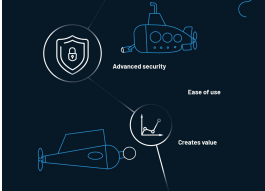

Make your security questions.

Enable multi-factor authentication (MFA).

Use Google reCAPTCHA. Easy on humans. Tough on bots.

Use risk-based authentication (RBA). Risk always evolves.

Don't let cybercrime sink your profits.

Get advanced data security for your company today.
